Introducing the DPI 620 HART[®] Communicator/Calibrator

A big HART[®] in a small package for a small price!

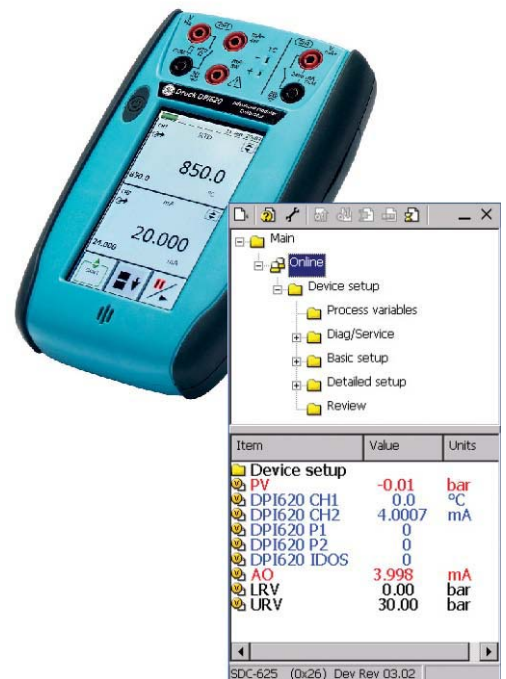

Setting the standard for HART[®] communication, configuration and maintenance

- Hand held HART[®] communicator with colour touch interface
- Complete Device Description Library for all HART[®] devices
- Free of charge upgrades and new device descriptions
- Robust, weather proof and extremely compact
- Quick and flexible connectivity - USB, WiFi, microSD and Memory stick

Already impressed? There's much, much more...

- Integral 24V loop power supply to energise HART[®] devices and loops
- Menu selectable 250 ohm loop resistor - you'll never lose it again
- Measures mA - no need for a multi-meter when trimming devices
- Simultaneously measures and sources the primary variable for sensor trim and device calibration, mA, mV, V, TC, RTD & frequency - no need for secondary calibration equipment

* Offer: Upgrade your NEW DPI 620 HART[®] Communicator/Calibrator by adding pressure calibration functionality and receive a free pressure module.

Existing DPI 620 users can upgrade to a DPI620 HART[®] Communicator/Calibrator for FREE

GE Sensing & Inspection Technologies

The DPI 620 HART® Communicator/Calibrator is part of the Advanced Modular Calibration System that includes the very best in pressure measurement and generation...

- Pressure accuracy from 0.005% FS
- Interchangeable pressure modules from 25 mbar to 1000 bar
- Pressure generation from vacuum to 100 bar pneumatic or 0 to 1000 bar hydraulic
- Tool less quick fit connections, over pressure protection

* Valid until 31 December 2009

* Receive a free pressure module when ordering:

- The DPI 620 HART® Communicator/Calibrator plus
- The MC 620 Pressure Module Carrier OR the PV62X Pressure Station
